

## Client Profile

A global leader in beverage packaging systems, serving the dairy, juice, specialty and other liquid food markets.

# A Global Leader in Beverage Packaging SAP ERP Workflow Implementation

## Business Requirement

- Need for a system driven approval of purchase requisitions as manual approval by managers is time consuming
- Need to determine the correct approver for the purchase requisitions created by various departments efficiently
- Need to improve visibility on the purchase orders. Managers approve the purchase requisitions outside ERP SAP and these can be changed before they are converted in to purchase orders in SAP
- Need to overcome the difficulty in maintaining the history of the purchase requisitions approved by managers

## Intelligroup Solution

- Implementation of SAP workflow for releasing the purchase requisitions
- Customization of the approver determination process In workflow and purchase requisition release strategy determination process to map the business requirement of the client

## Business Benefits

- System driven approval of purchase requisitions
- Improved procurement process as purchase requisition release process is automated
- Better control on the procurement process as the purchase requisitions will be approved by multiple approvers based up on value
- Determination of the approvers to release the purchase requisitions is automated
